

ARVINTH ARASU

Strategic Business Analyst · Vancouver, British Columbia · arvintht@gmail.com · +1-226-338-4846

SUMMARY

Results-driven Business Consultant & Strategic Business Analyst with 10+ years of experience delivering business transformation, requirements analysis, and policy evaluation across public and private sectors. Skilled in requirements gathering, Agile delivery (SCRUM), process design, and stakeholder facilitation, with proven ability to document, validate, and implement business and functional requirements. Strong background in change management, program evaluation, and governance, leveraging tools such as JIRA, Confluence, and Power BI to drive innovation and continuous improvement.

EXPERIENCE

Strategic Business Analyst

April 2020 – Present

Ministry of Finance, B.C Public Service

- Facilitated requirements gathering sessions and process walkthroughs across IT, finance, and policy projects
- Conducted gap analysis of current vs. future state business processes, producing optimized workflows and recommendations
- Created and maintained user stories, personas, journey maps, and system use cases to support Agile delivery
- Authored functional requirements documents, BRDs/FRDs, and interactive mock-ups to guide solution development
- Partnered with Executive Leadership Team, SMEs and project sponsors to validate requirements and prepare steering committee materials
- Collaborated with Corporate Communications and Change Management teams on program communications, ensuring consistency of messaging across stakeholders
- Supported change management initiatives, designing training sessions, procedural manuals, and adoption strategies
- Led post-implementation reviews, identifying backlog refinements and opportunities for continuous improvement
- Designed and managed Program Governance including reporting, steering committee materials, and board meeting preparations while managing executive meeting cadence
- Recognized with an APEX Award for contributions to the BC Recovery Benefit program

Accounts Analyst

November 2019 – March 2020

Shoppers Drug Mart

- Made entries for multiple modes of payments (Debit, Credit, Cheques, Electronic Fund Transfer) for 9 sites across Canada with zero errors
- Analyzed large data sets and created custom reports for Accounting teams

Business Performance Consultant

January 2016 – September 2018

AstraZeneca India Private Limited

- Aligned IT Strategy of Global Technology Center in Chennai with the broader enterprise business

strategy

- Created insightful business presentations for the senior management team enabling them to make key strategic decisions based on data
- Developed and produced KPI scorecards and dashboards, by leveraging MS PowerBI to build key analytics and data-driven insights
- Optimized offices for strategic, third-party vendor management and demand management; streamlined recruitment initiatives and achieved process reduction times of 50%
- Led cross-functional groups for business reviews and collectively proposed solutions for better functioning of the enterprise
- Conducted thorough secondary market research to identify and analyze key trends; presented recommendations to the Chennai leadership team
- Prepared and analyzed business cases to drive new policy implementations across the Chennai office
- Established RPA Center of Excellence by building the in-house capability of an organization with guidelines and standards for development in regulatory areas

Senior Associate Consultant

December 2011 – December 2015

Infosys Limited

- Led a high-performing technical team of 15 members in daily support of over 5 critical applications for a global leader in next-generation digital service and consulting
- Fostered a rewarding culture of excellence and integrity; ensured superior customer service and support; propelled team-wide customer satisfaction to 20% improvement
- Prepared monthly KPI dashboards to highlight the improvement in the performance of the team by more than 25% since inception
- Supported business development team with key analysis and insights to drive pre-sales activities and acquire business opportunities valued at over \$1 Million
- Spearheaded meetings with cross-functional leadership and internal and external stakeholders; delivered high-impact presentations showcasing key business insights
- Collaborated with development teams to build an innovative proof of concepts (POC) for potential clients to ensure engaging, high-impact presentation of team capabilities

Analyst

June 2011 – November 2011

Feedback Business Consulting

- Performed primary research by interviewing multiple key stakeholders to derive key market insights and gain critical feedback and ideas
- Conducted secondary research across numerous diverse industries; produced and delivered comprehensive reports with a complete analysis of gathered insights
